## ABOUT ME

---

I'm Tanmay, a Computer Science student focused on frontend development and modern web technologies. I specialize in building responsive and interactive web interfaces using React and Tailwind CSS. I enjoy working on clean component structures, smooth UI interactions, and creating layouts that adapt seamlessly across devices.

B.Tech - Computer Science & Engineering | Percentage - 83.53%

### Kulachi Hansraj Model School

Class 10<sup>th</sup> (CBSE) - Percentage: 89%

Class-12<sup>th</sup> (CBSE) - Percentage: 85.6%

## PROJECTS

---

### Personal Portfolio (React, Tailwind CSS)

- Built a responsive personal portfolio website showcasing projects, skills, and experience.
- Implemented smooth animations and a dark-theme UI to create a polished, modern browsing experience.

### Quick-Legal (React, Node.js, Tailwind, Gemini API)

- Developed an AI-powered legal document analyzer that evaluates Terms of Service and contracts for hidden risks.
- Integrated the Gemini API to generate a trust score and highlight key risk factors within seconds of document analysis.

### Scholar-Sync (React, Node.js, Tailwind, APIs)

- Built an AI-powered research tool that returns 9 curated videos for any entered topic — 3 each by most liked, shortest, and recently added — alongside an AI-generated quick summary of the topic.
- Designed the ranking logic to surface diverse, relevant video results and streamline topic research.
